### Turn Signals for 2005 Audi A4 Quattro for sale | eBay

This video shows you how to replace a burnt out rear turn signal on your 2005 Audi A4. We recommend that you change both the driver and passenger side bulbs at the same time on your A4 as they get dimmer over time and if one is out, then the other one is likely to burn out soon. If the turn signal (also known as a blinker or flasher) blinks rapidly or doesn't blink at all or lights up without blinking when it is turned on, this is your A4's way of telling you that the bulb is burnt out.

I am working on a 2005.5 B7 A4, that is getting a 00493 fault in the ABS module. I have tried replacing the G419 sensor with 2 used but known good ones. Even after replacing it the fault comes back instantly after trying to clear it. I have verified the wiring is good from the G419 connector back to the ABS module. I have also sent the ABS module out to a rebuild company to verify it is in ...

I am trying to figure out what is causing my 2005 Audi A4 2.0T from starting. There is no start, not even attempting to crank even when hooked up to a battery. All of the accessories are working properly. Starter was replaced, fuses were replaced, noticed an access build up of water in the ECU, fuse panel under hood. I am waiting for a replacement however looking for input until it arrives.
