The Number To

IEEE 802 is a family of IEEE standards dealing with local area networks and metropolitan area networks. The IEEE 802 standards are restricted to networks carrying variable-size packets, unlike cell relay networks, for example, where data is transmitted in short, uniformly sized units called cells. Isochronous networks, where data is

Trip. There are, it's said, a set of telephone numbers from which you should never answer any calls. They're called red numbers — and although no one knows who owns them, it's not hard to see how they got their name. The most obvious reason for their name, of course, is that when they appear on your mobile phone's display, they show up ...
