2. Say, "During your presentation, you will need to tell us the name of your design and how it proves that air is all around us. Then you will have a chance to take questions and comments from the class." \*\*At some point, reinforce rules about making and asking positive, constructive comments and questions. 3.

### Air Is All Around Us! | Educator Resource Center

Air pollution is measured with the Air Quality Index, or AQI. The lower the AQI, the cleaner the air is. However, if you are outside when the AQI is over 100, it's about the same as breathing in exhaust from a car all day! Things that cause poor air quality are forest fires and cities with lots of car traffic.

BlauX Wearable AC Review: We have air conditioners at home as well as at workplaces and in colleges. However, there's no escaping the heat while you travel on foot or on a bicycle. It can be very difficult to go out of your house when the weather is particularly hot, sunny, and humid which is why many people decide in favor of staying indoors.
