The value for ReceiveOptBlueMarketing must be collected from the customer/sub-merchant by the PayFac and the default cannot be set to "No" per OptBlue program regulations. Default may be set to "yes."

Payfac Reference Guide | Worldpay Dev Portal

Typically, you can match up requests to responses using order.id and transaction.id fields as these are provided in the requests and returned in the responses. However, if your application does not support a synchronous integration model or your source and target for a request differ, you can use the field correlationId to identify the request and its matching response.
