The internal rate of return (IRR) calls for determining the yield on an investment, that is, calculating the interest rate that equates the cash outflows (cost) of an investment with the subsequent cash flows. The simplest case would be an investment of \$100 that provides \$120 after 1 year, or a 20 percent internal rate of return. For more complicated situations, we use Table 2 from part 31 of ...

### The Rant: Foundations of Financial Management: An Analysis ...

The Importance of Financial Management. For a business to succeed, every business owner or manager must give their utmost attention to financial management. It is because being competent in handling the finances means the business is also running efficiently. Hence, financial management is essential when it comes to a company's life cycle.
