How Does Angel Investing Work? - Money Morning

Angel investors are individuals who seek to invest at the early stages of startups. These types of investments are risky and usually do not represent more than 10% of the angel investor's portfolio.

Angel Investor Definition

Angel investors will pop up in an area and invest in a bunch of companies—but then those companies get stranded because there are too few Series A or Series B VCs there to invest in them. The VCs come in, pay low valuations and wipe out early investors by converting them to common and putting warrants on top.

How to Angel Invest, Part 1

Angel investing is by its nature a high-risk high-reward proposition. As such, most experts suggest having a portfolio of at least 10 companies in
