ANSI/ NCSL Z540.1-1994 (R2002) - Print Version Withdrawn as an active standard (July 2007) and superseded by ANSI/ISO/IEC 17025:2005 for part 1 and ANSI/NCSL Z540.3-2006 for part 2.This standard provides a mechanism for promoting confidence in calibration laboratories and measuring and test equipment when it can be shown that they are operated in compliance with its requirements.The intent of ...

NCSLI Z540 Standards - NCSL International

In 1994, as a cost saving measure the Department of Defense prohibited the use of all military standards in favor of commercial performance standards. In response, NCSLI members quickly developed ANSI/NCSL Z540-1. Z540-1 was renewed several times until it was rescinded in 2007, after the newer ANSI/NCSL Z540.3 was approved.

Z540-1 Calibration Services - Keysight

Currently in the U.S. there are two national standards for calibration laboratories such as, the ANSI/NCSL Z540-1 (Z540-1) and ISO/IEC 17025. Having two different national standards can be confusing for both laboratories and customers; therefore, we have put together a brief guide to describe the basic differences between the two standards.
