The AIM-9 Sidewinder is a short-range air-to-air missile developed by the United States Navy in the 1950s. Entering service in 1956, variants and upgrades remain in active service with many air forces after five decades. The United States Air Force purchased the Sidewinder after the missile was developed by the United States Navy at China Lake, California.

AIM-9 Sidewinder - Infogalactic: the planetary knowledge core

were of great value to the Ordnance Department and were translated into French and German. He did most of the work on the first Ordnance Manual ever published by the United States Army (1841), and was alone responsible for making important revisions in it (2nd edition, 1850). After several years with the Ordnance
