De Dietrich Process Systems can provide glass-lined reactors to meet a wide variety of chemical processes, volume requirements (from laboratory scale and pilot plant sizes up to very large production units), incorporating local design and international code requirements (ASME, AD2000, GB150, JIS...)

Glass-Lined Reactor | De Dietrich Process Systems

The De Dietrich Gas 310 ECO Series of condensing boilers combines over thirty years of European condensing technology experience with proven North American control expertise. The cast aluminum heat exchanger allows for superior and faster heat transfer that results in greater efficiencies. The boilers' large water-ways result in lower pressure drops through the boiler, allowing for smaller ...
