worldwide tool. Most companies use Excel on a daily basis and it has become essential to master this tool optimally. 1.2 billion people worldwide use Microsoft's Office suite, including 1 billion for Excel. It has almost become a universal language.

## **Develop your Excel skills to improve your Supply Chain ...**

Excel calculates circular references sheet-by-sheet without considering dependencies. Therefore, you usually get slow calculation if your circular references span more than one worksheet. Try to move the circular calculations onto a single worksheet or optimize the worksheet calculation sequence to avoid unnecessary calculations.
