Evolution of Fisheries and Aquaculture in India - CMFRI ...

India exported a tenth of its fish in 2016. Fish production also contributes around 1% to India's gross domestic product and over 5% to the agricultural GDP. In the 1950s, fish from the seas accounted for more than 70% of India's fish production, but by 2016-17 its share had more than halved, and inland farming rose.

Fish farms to produce nearly two thirds of India's fish ...

In Jhingran, Arun G. and V. K. Unnithan (eds), Reservoir fisheries in India, Proceedings of the national Workshop on Reservoir Fisheries, 3-4 January, 1990. Special Publication 3 , Asian Fisheries Society Indian Branch, Mangalore, India, pp 33-38.

Reservoir fisheries of India

It can be argued that the unilateral abrogation of the maritime boundary agreement on India's part would cause irreparable damage to India's image in the comity of nations. 13 Two courses of action exist: (1) get back the island of Kachchatheevu on "lease in perpetuity" or (2) permit licensed Indian fishermen to fish within a designated area of Sri Lankan waters and vice versa.

The India-Sri Lanka Fisheries Dispute: Creating a Win-Win ...

Aquaculture (less commonly spelled aquiculture), also known as aquafarming, is the farming of fish, crustaceans, molluscs, aquatic plants, algae, and other organisms. Aquaculture involves cultivating freshwater and saltwater populations under controlled conditions, and can be contrasted with commercial fishing, which is the harvesting of wild fish.
