GE - Parts Store

This amendment supersedes two existing airworthiness directives (AD's), applicable to General Electric Company (GE) T58 and CT58 series turboshaft engines. The current AD's revised the counting method for hours in repetitive heavy-lift (RHL) service and reduced the life limit for rotating components.

Airworthiness Directives; General Electric Company T58 and ...

the terms of the contract, GE was to develop the XT-58 "baby gas turbine" that the company had proposed as a powerplant for helicopters. The engine was to weigh 400 pounds and was to produce 800 shaft horsepower (shp). The T58 was developed for helicopter use and was the first turbine engine to gain FAA certification for civil
