trust data to encourage their use by National Statistical Offices (NSOs).

OECD Guidelines on Measuring Trust | en | OECD

The OECD is advancing the measurement of public trust. Through improved evidence, we want to better understand what policies and governance reforms can governments design and implement for restoring and maintaining public trust. WHAT DRIVES PUBLIC TRUST IN GOVERNMENT?

Trust in Government - OECD

The newly released OECD Guidelines on Measuring Trust offer international recommendations on collecting, publishing and analysing trust data to make it easier for national statistical offices to do so (Besides trust in institutions, the guidelines also focus on trust in other people, which is a key element of social capital.) On the question of statistical quality, the guidelines provide evidence about the validity and reliability of trust data.

People, trust and government: Getting the measure - OECD ...

Trust is a fundamental element of social capital – a key contributor to sustaining well-being outcomes, including economic development. In this entry we discuss available data on trust, as measured by attitudinal survey questions; that is, estimates from surveys asking about trusting attitudes.

Validating a scale for citizen trust in government ...

"Trust in government is at an all time low." Does this line sound familiar? Throughout American political history, it has appeared in the headlines of countless articles, today many citing the Pew Research Center's Public Trust in Government scale or the Edelman Trust Barometer. And yet, while these macro-level studies of citizen trust in government have been a mainstay of American media ...

From Research to Results: Measuring Trust in City Agencies ...

Even when trust in government can be measured, it is not at all clear whether changes in the level of trust are actually influenced by government-related factors. We suggest, finally, the hypothesis that trust could be insufficient but necessarily part of a set of indicators which are unnecessary but sufficient for good governance.
