OAT: Every 300,000 miles, 6,000 engine hours, or one year (whichever comes first) If you need to add additional coolant, it's best to stick to one coolant when possible. If mixing of products or brands is necessary, the best practice is to stay within one type of coolant, so for example, avoid mixing HOAT coolants with OAT or NOAT solutions, or IAT coolants with OAT solutions and vice versa.
