Oracle Utilities Pocket Reference Sanjay

The Oracle Utilities Pocket Reference is a handy, quick-reference guide to the multitude of Oracle utilities that database administrators (DBAs) use every hour of every day. As the undisputed leader among database products, Oracle is grasped conceptually by most DBAs. However, they understandably may not recall the specific utility to use for a given task, and, more commonly, won't in many cases remember the syntax to use.

Mishra, Sanjay -

This O'Reilly pocket reference contains straightforward documentation about the Oracle DBMS utility set, current as of 10g (expdp and impdp are included). Terse, accurate, straightforward. A much faster way to find answers (once you know the questions) than the often wordy Oracle Press tomes and a useful supplement to that series, for the everyday Oracle DBA.
