### Ordinary Cities Between Modernity And

This groundbreaking book establishes a new framework for urban development. It makes the argument that all cities are best understood as 'ordinary', and crosses the longstanding divide in urban scholarship and urban policy between Western and other cities (especially those labelled 'Third World').

### Ordinary Cities: Between Modernity and Development ...

Jennifer Robinson's "Ordinary Cities" delivers a powerful critique of the spatial division of academic theorization. Her central thesis is that urban theory development has been hampered for too long by the assumed dichotomy between innovative "global cities" in rich countries and imitative "third world" cities in poor countries.

## Questioning Cities

Ordinary cities between modernity and development. Robinson J., 2006, Ordinary cities between modernity and development, London, Routledge, 204p. "Ordinary Cities" is now thirteen years old and it features in the reading list of many urban geography university courses, from UCL (where J. Robinson is professor of Geography) to SOAS, LSE and McGill. Its concepts and messages have diffused largely in academia (cf. for instance the 1899 citations of the book in scholarly publications at the ...

### **Review: Ordinary Cities: Between Modernity and Development ...**

Ordinary Cities is an interesting read and makes some useful arguments about modernity and the colonial underpinnings of urban studies, but I do have a few initial criticisms. First, on the policy end, she argues for taking a city-wide approach to urban development, but then indicates that cities are already doing so.

### **Ordinary Cities: Between Modernity and Development ...**

If we can refocalise modernity from a definite geographical frame towards all cities, then modernity can be omnipresent - it can be ordinary. Many of the most interesting case studies throughout the book focus on elaborating this position. Moreover, there are methodological implications consequent on framing cities as ordinary.

assert that "ordinary cities"—cities "between modernity and development" are really the cities of importance (Robinson, 2006). While these cities don't fit into noteworthy categories and rankings, they are hardly "economic {ally} irrelevant" (Knox, 1995).
