Pharmacy case studies (Book, 2009) [WorldCat.org]

Case studies give the pharmacy student the opportunity to test their understanding of a given topic - from the formulation and dosing of a medicine, to the drug's mechanism of action, drug interactions and clinical suitability. Case studies are, then, the barometer through which we measure the professional competency of the pharmacy student.

Pharmacy CASE STUDY - Home | Facebook

Objectives Low-molecular-weight heparins are widely used in clinical practice for the treatment or prophylaxis of venous thromboembolism (VTE). As these drugs are eliminated mainly by renal means, any renal function impairment may lead to higher plasma concentrations and increase the risk of bleeding. This study aims to evaluate whether in clinical practice there is an increase in the ...
