### Sexual Behaviour In The Human

Human sexual activity, human sexual practice or human sexual behaviour is the manner in which humans experience and express their sexuality. People engage in a variety of sexual acts, ranging from activities done alone (e.g., masturbation ) to acts with another person (e.g., sexual intercourse , non-penetrative sex , oral sex , etc.) in varying patterns of frequency, for a wide variety of reasons.

### Human sexual activity - Wikipedia

Although human sexual behavior is much more complex than that seen in rats, some parallels between animals and humans can be drawn from this research. The worldwide popularity of drugs used to treat erectile dysfunction (Conrad, 2005) speaks to the fact that sexual motivation and the ability to engage in sexual behavior can also be dissociated in humans.
