The coat of arms of Haarlem consists of a red shield with a silver sword with golden handle under a white Jerusalem cross and flanked by 4 white six-pointed stars. Above the shield is the Imperial Crown of Austria under barren branches holding two Damiate bells, all held up by two golden lions standing on the motto of Haarlem. Several heraldic elements have their basis in the history of Haarlem.

The blue chief contains no stars (although certain derivative arms do, e.g. the chief of the arms of the United States Senate). The outermost stripes are white, not red, to avoid violation of the rule of tincture, as the chief is blue. The supporter of the shield is a bald eagle with its wings outstretched (or "displayed", in heraldic terms).

It was the event level 70 G-max Centiskorch and G-max Butterfree. I have two Switches that I connected locally and had my complete Shield file share a 5\* raid. I was able to catch it on my noob Sword file and it just scaled the level down from 70 to 25. I haven't checked if the IVs and everything was the same but I see no reason why it wouldn't be.
