Framing research is often traced back to two largely unrelated traditions of thinking. The first emanates from research conducted by the psychologists Amos Tversky and Daniel Kahneman (Kahneman and Tversky 1979, 1984) in which the term "framing" was used to describe subtle differences in the definition of choice alternatives. Subjects in these

THE STATE OF FRAMING RESEARCH: A CALL FOR NEW DIRECTIONS

This chapter provides an assessment of the state of research on framing, and examines how the concept of framing has been used across different disciplines. Using this overview, the authors explore two of the most common conceptual misunderstandings related to framing and their implications for political communication research. This includes an overview of the different approaches to framing ...
