The “Uncanny”¹ (1919) SIGMUND FREUD I It is only rarely that a psychoanalyst feels impelled to in-vestigate the subject of aesthetics even when aesthetics is understood to mean not merely the theory of beauty, but the theory of the qualities of feeling. He works in other planes of mental life and has little to do with those sub-

The “Uncanny”¹ - MIT

The uncanny is the psychological experience of something as strangely familiar, rather than simply mysterious. It may describe incidents where a familiar thing or event is encountered in an unsettling, eerie, or taboo context.. Ernst Jentsch set out the concept of the uncanny which Sigmund Freud elaborated on in his 1919 essay Das Unheimliche, which explores the eeriness of dolls and waxworks.

The Uncanny Summary and Study Guide | SuperSummary

In The Uncanny, Freud attempts to figure out why certain things fill us with a unique feeling of fear and unease, a feeling that, Freud argues, is distinct from mere fear. Freud notices that this effect is often used by literature and in the arts, and believes that his study is unique because it explores a negative and not a positive effect of art, like beauty or grandeur.
