I recommend professional help in the form of a physical therapist (especially at the start and if both your arms are affected). You can massage the trigger points every two days and after that you should perform a round of stretching exercises. After two to three weeks the referred pain should slowly subside.

Trigger point massage - Repetitive Strain Injury (RSI)

Trigger points can occur as a result of muscle trauma (from car accidents, falls, sports, and work-related injuries, etc.), muscle strain from repetitive movements at work or play, postural strain from standing or sitting improperly for long periods at the computer, emotional stress, anxiety, allergies, nutritional deficiencies, inflammation, and toxins in the environment.

What You Need to Know About Trigger Point Therapy

Improved Circulation – By restoring blood flow in a trigger point's localized area of contraction, trigger point therapy helps re-open closed capillaries and improve overall circulation. Enhanced Range of Motion – Healing the fascia through trigger point therapy helps lubricate muscles that are stiff, improving your range of motion.

Trigger Points: What is Trigger Point Therapy & How Does ...

Since a trigger point is the contraction mechanism of the muscle locked into a shortened position, the treatment of the trigger point involves unlocking that contraction mechanism (sarcomere). This can be achieved in several ways.

NAMTPT - Myofascial Trigger Point Therapy - What is it?

A trigger point is an area of hypertonic or tense muscle tissue. Usually the cause of these areas of tension is due to overuse or hyperactive musculature. Think improper posture, trauma, or repetitive use. Here's the zinger (literally): trigger points are known to refer pain along a specific pattern to certain areas of the body.

trigger point therapy aventura - drdoman.com

Trigger point therapy mostly consists of rubbing and pressing on trigger points — which can feel like an amazing relief. Dry needling is a popular (and dubious) method of stabbing trigger points into submission with acupuncture needles. Treatment is not rocket science 1 — it's much too experimental to be so exact!

The Complete Guide to Trigger Points & Myofascial Pain (2020)

A trigger point in the hip can mimic sciatica, or pain down the back of the leg. Trigger points typically form due to a variety of factors, such as repetitive muscle stress, poor posture, direct injury, and muscle tension caused by mental stress. How Is Myofascial Pain Treated? Trigger point therapy works by unlocking the contraction in the ...

How to Treat Trigger Point Pain - Hands-On Health Massage ...

To treat trigger points apply sustained pressure for a period long enough to release the muscle spasm, about 10-30 seconds to deactivate it, release and relax the muscle. This increases blood flow to the muscle normalizing it and bringing it back to a healthy state.
