Who Are We?: Religious, Philosophical, Scientific and ...

Philosophy of religion is "the philosophical examination of the central themes and concepts involved in religious traditions". Philosophical discussions on such topics date from ancient times, and appear in the earliest known texts concerning philosophy. The field is related to many other branches of philosophy, including metaphysics, epistemology, and ethics.

Meaning of life - Wikipedia

A belief is separate from a religion. You can believe that there is a God, without making that your religion. However religions have sets of beliefs. This is analogous to the observation that all squares are rectangles, but not all rectangles are squares. A belief is not a religion, but all religions contain beliefs.

Who are we? Why our we here?

What is our purpose?

The point of pondering the aforementioned questions and finding a satisfactory personal answer to them is to link your thoughts and opinions (and the rationale behind them), be they philosophical, religious or political, into an internally consistent framework, which helps you deal with new questions and ideas and gives you a means to overcome ...

Anthropocentrism, philosophical viewpoint arguing that human beings are the central or most significant entities in the world. This is a basic belief embedded in many Western religions and philosophies.

Anthropocentrism regards humans as separate from and superior to nature and holds that human life has intrinsic value while other entities (including animals, plants, mineral resources, and so on) are resources that may justifiably be exploited for the benefit of humankind.
