reduced to less than 1 000 kilograms.

Rear Axle System A 132 - ZF

The ZFAV 132, introduced in 1995, is a portal drive axle for low floor buses. The drop centre design allows for a full low floor throughout the vehicle which ZF touts as a benefit to improve passenger flow and safety. The passive non-driving version of the axle is known as the AVN 132 and is commonly found in articulated buses.

ZF AV 132 - CPTDB Wiki

The rear axle is an AV-132 ZF model equipped with a pneumatic disc brakes system. An identification plate is affixed to the right rear side of the axle and contains information to assist you when ordering replacement parts.
